

OLIVE PRODUCTION FOR OIL UC Davis Short Course

Date: February 12, 2010

Address: Fresno, CA

Location: CSU Fresno, Craig School of Business

Registration: <http://www.olivecenter.ucdavis.edu>

Learn from the olive experts

Get the best knowledge available on modern, high-yield methods of producing olives for oil.

This one-day course will include presentations by industry professionals and research experts from the University of California. Whether you are considering planting olives or you have already put in an orchard, you are sure to learn a lot from the experts in the field. This course includes coffee and pastries, and lunch. You will also receive electronic copies of course presentations.

This course will follow the World Ag Expo which will be held in Tulare, CA from Feb. 9-11, 2010.

This course is intended for current and prospective growers. A two-day in-depth class will be offered June 25-26, 2010 at UC Davis.

Registration before January 15: \$250

AFTER January 15: \$275

Registration cost covers instruction, meeting facilities, and meals.
